

## NEW PRODUCTS

VEHICLE: 2021-23 FORD F-150 TREMOR

LIFT TYPE: SST LIFT KIT

LIFT HEIGHT: 3"

MAX TIRE SIZE: 35X11.5

WHEEL WIDTH: 9"

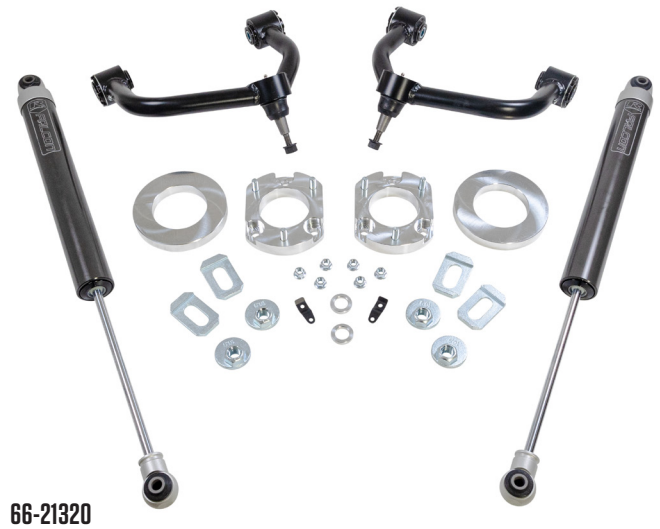

WHEEL OFFSET: +18

PART NUMBER: 66-21320

The all-new 3" lifted and leveled kit for the 2021-2023 Ford F-150 Tremor® includes Falcon 1.1 Monotube rear shocks for superior ride and handling. This kit lifts the front of your F-150 Tremor with the front CNC-machined billet Aluminum lift components and our popular tubular control arms with corrected ball joint pivot angles. Our front lift is ideal to give the perfect level-lifted stance when compared to the overbearing factory-rake on the F-150 Tremor. Adding our renowned proprietary Falcon 1.1 Monotube shocks to the rear suspension helps match the Tremor's ride and handling with its aggressive styling and newfound level-lifted stance.

### Features and Benefits:

- 3" front lift kit is specifically constructed for F-150 Tremor models
- Allows 35X11.50 or 295/60-20 Max tire size on a 9" wide wheel with +18 offset
- 35X12.5" wheel 20X9" with 0 offset (Some minor trimming may be necessary depending on the tire design/construction.)
- Clean installation - no cutting or welding of factory components
- Includes strong tubular DOM steel Upper Control Arms with heavy-duty ball joints and TCT bushings.

**66-21320** - 2021-2023 Ford F150 Tremor 3" Front Lift Leveling Kit includes Alignment Cams and UCAs w/ Falcon 1.1 Monotube Rear Shocks
